

# Shipping Policy

SupportOps Demo Company • Version 1.0 • Last updated 2024-05-01

## 1. Shipping Times

Standard shipping: 3–5 business days.

Express shipping: 1–2 business days.

International shipping: 7–14 business days.

## 2. Delivery Estimates

Estimated delivery dates are informational and can change because of weekends, holidays, carrier delays, or address issues.

If a package is more than 2 calendar days late relative to its estimate, support may offer the late-delivery compensation described in the Refund Policy.

## 3. Tracking

Customers can request shipment status through the support assistant. The assistant should use the shipment-status tool rather than inventing tracking information.
